

Hello! My name is Staci Steiner and I am formally announcing my candidacy for the Southwest Area Alt. Executive. I attended my very first area rally in April. While reflecting on those two days, I found myself excited about my job again. I want to be more involved in an organization that cares about its members and about our farmers and ranchers like NASCOE does!

I am a CED in Pinal~Pima County, Arizona. I have been an Arizona resident since my relocation in August 2023. Yes, I willingly chose to move to triple digit heat. I moved from Wyoming, where I started in 2015 as a PT, went through COT training in 2021, and became a CED in November 2021 in Crook County, Wyoming. I was a member of WYASCOE and I am excited to help rebuild Arizona's membership.

I appreciate the time and effort put forth by NASCOE to constantly address concerns of the members as well as help navigate the never-ending flow of programs. I am so thankful for NASCOE's support of our County Committee system and the benefit to our producers that this provides.

I understand the size of the Southwest area and I recognize there are several unique farming and ranching challenges that our producers face. With your support, I would like to be a voice for you and work to find a path forward that is helpful and practical. I promise to listen, and to the best of my abilities, work hard to represent your needs, and maybe some wishes along the way.

Thank you for your consideration.
