I respectfully announce my candidacy for the office of Southwest Area Executive.

I am honored to currently be serving a third term as the Southwest Area Alternate Executive providing support to the area executive and members in the Southwest Area.

Building upon the recent wins of NASCOE, we have good news to share with our members and nonmembers alike as examples of how hard we have been working for all employees. It is imperative that we tell our story to all employees, especially those newly hired. Maintaining our relationship with management is important and has been instrumental in achieving our goals, but recruiting new members is vital to our association.

I pledge to continue to learn, listen and support the goals of the Association if elected. I am glad to continue to share the story of our FSA family and would be honored to represent the Southwest Area.
