

Candidacy Announcement
Mike Mayfield - Southeast Area Executive

I would like to take this opportunity to ask for your support in my attempt for a second term to represent you as the Southeast Area Executive on the NASCOE board. I have 32 years of experience working with FSA to draw upon to assist me in serving you with the challenges that ultimately lay ahead. I have been excited with the progress we have made in the last year and look forward to the challenges in the future.

I have witnessed many changes over the years. Some good and some not so good! One thing is for sure, changes are not going to stop and they shouldn't because if we stand still technology and ever-changing service models will pass by our agency. I would like to have the opportunity to impact those changes and to make them beneficial to ALL members of NASCOE. NASCOE has accomplished many things on the behalf of its members and seeing that continue is very important to me. I respectfully ask for your support and vote in this endeavor to become your Southeast Area Executive Committee person.

Sincerely,
Mike Mayfield
