

I humbly announce that I am again running for the office of Southwest Area Alternate Executive.

This past year has been a learning experience for me as the current alternate exec. I already had a healthy respect for the time area executives and officers devote to the operation of NASCOE, but this past year has been eye opening as to the dedication they give the association.

There is great need and importance of telling our story to new employees, especially as retirements have increased during COVID. Recruiting new members is vital to our association.

I pledge to continue to learn, listen and support the Southwest Area Executive and the goals of the Association. Thank you for your support.

Terry Cater
